

Azel Steelhands

Male Dwarf Groundskeeper

Azel is hardworking and diligent. He is highly protective of the gardens and their beauty, disapproving those who don't appreciate nature. His dedication to his work often makes him seem gruff and withdrawn.

Description

Azel is stout and burly. His hands hold the proof of his work, scarred yet strong. His hair and beard are a deep forest brown, knotted into intricate braids filled with small trinkets and dried flowers.

Gravelly, deep and accompanied by a varied range of plant-based jargon.
